No.-EE(EMS)WZ/2026-27/D-273 Dated : 04.08.2026

Name of work: Empanelment of third party agencies for handling/processing of waste generated by Bulk Waste Generators.

In pursuance of the statutory provisions under the Solid Waste Management Rules, 2026, notified by the Government of India, which are effective from 01 April 2026, and in compliance with the directions of the Hon'ble Supreme Court in Civil Appeal No. 6174 of 2023 (Bhopal Municipal Corporation vs. Dr. Subhash C. Pandey & Ors.), the Rule 2(i) of the Solid Waste Management Rules, 2026 specifies that: -

A Bulk Waste Generator (BWG) means any entity or premises fulfilling any one or more of the following criteria:

- Building(s) having an area of ≥ 20,000 square meters; or
- Water consumption of ≥ 40,000 litres per day; or
- Generation of solid waste of ≥ 100 kg per day

It has been noticed that, currently Bulk Waste Generators (BWGs) in the city lack sufficient in-house experienced required infrastructure to effectively manage the waste. This limitation has resulted in inefficient waste management and a rise in waste disposal at designated dumping sites within the city.

In response to this challenge, MCD has formulated a strategy to enlist the services of waste management-related solution providers (refer as "Agency/Agencies") through an empanelment process.

To support the BWGs, the department had invited EoI to empanel agencies for the efficient management of waste generated by Bulk Waste Generators within the Jurisdiction of Municipal Corporation of Delhi as per SWM Rules 2026 for the following 05 categories. Interested agencies can choose any of the categories: -

Category 1: Management of all waste streams - **Wet, dry, special care & sanitary waste** which includes.

a) Management of wet waste i.e. providing wet waste processing solutions (In-situ and/or offsite) through composting/bio methanation.

AND

b) Services for collection, transportation, and further processing of Dry and Special Care & Sanitary Waste (In-situ and or offsite).

Category 2: Management of **Wet waste only** i.e. providing wet waste processing solutions (In-situ and/or offsite) through composting/bio methanation.

Category 3: Management of **Dry waste only** i.e. setup of manual or semi-automatic processing solutions (In-situ and/or offsite) through MRF including services for collection, transportation and processing/ recycling or channelization of dry waste.

Category 4: Management of **Special care waste and sanitary waste.** This includes services for collection, transportation and further processing of special care waste and sanitary waste.

Scanned with OKEN Scanner

Category 5: Management of **E-Waste.** This includes services for Collection, storage and further processing of e-waste by CPCB/SPCB authorized e-waste dismantlers/recyclers.

Agencies empanelled for wet waste processing (Category 1 or 2) can also provide services for horticulture waste management to the BWGs.

After due process, under mentioned **25 agencies** have been empanelled for **06 months only** on **trial basis** in MCD jurisdiction after which their activities shall be reviewed and their capacity shall be examined, which shall enable the Corporation in deciding the further course of action in the matter.

Sr. No.	Details of Agencies	Category Empanelled for
1.	**21 Century Polymers** M-86, Sector 2, DSIIDC Bawana Industrial Area, Delhi - 110039 Cont. No. : 9910125727 Email ID : rajeshpahwa71@gmail.com	Categories for 1 & 5
